# What is Slidev?

Slidev is a slide maker and presentation tool designed for developers. It includes the following features:

- 📝 **Text-based** - focus on your content with Markdown, then style it later, focus on your content with Markdown, then style it later
- 🎨 **Themable** - themes can be shared and reused as npm packages
- 👨‍💻 **Developer Friendly** - code highlighting, live coding with autocompletion
- 👩‍🎤 **Interactive** - embed Vue components to enhance your expressions, embed Vue components to enhance your expressions
- 🎥 **Recording** - built-in recording and camera view
- 📤 **Portable** - export to PDF, PPTX, PNGs, or even a hostable SPA
- 🛠️ **Hackable** - virtually anything that's possible on a webpage is possible in Slidev

# Display an image

# Code

Use code snippets and get the highlighting directly!

```typescript
interface User {
  id: number
  firstName: string
  lastName: string
  role: string
}

function updateUser(id: number, update: Partial<User
  const user = getUser(id)
  const newUser = { ...user, ...update }
  saveUser(id, newUser)
}
```

# Breadcrumb component usage

Use the `Breadcrumbs` component:

```
<Breadcrumbs />
```

# This is title 1.1

htw saar    UNIVERSITÉ DE LORRAINE

Content in section 1.1

htw saar

# This is title 1.2

# This is title 1.2.1

# This is title 1.2.2

You can use the `minDepth` props to hide the start of the breadcrumbs.

Example here:

```
<Breadcrumbs minDepth="2" />
```
